Thickness Increase (max)	10%	8%	10%	8%
High Temperature Resistance	Slight Effect	Slight Effect	Slight Effect	Slight Effect
Stain Resistance				
Reagents 1 and 2 Groups	No Effect	No Effect	No Effect	No Effect
Reagents 3 and 4 Groups	Slight Effect	Slight Effect	Slight Effect	Slight Effect
Small Dia Ball Resistance	20 N	22 N	20 N	22 N
Dimensional Stability				
MD (%max)	0.50	0.35	0.50	0.35
CD (%max)	1.05	0.70	1.05	0.70
Resistance to Dry Heat (180°)	Slight Change	Slight Change	Not Required	Not Required
Resistance to Cigarette Burn	Moderate Change	Moderate Change	Not Required	Not Required

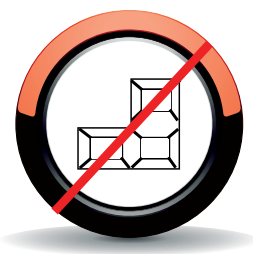

Do not use chemicals for cleaning.

Avoid direct sunlight / continuous light. These may cause colour fading.

Extra care required in vertical pasting of laminates sheet as there is possibility of bubbles due to lack of uniform pressure.

Cracking at corners and around cuts may be caused by improper conditioning, improper bonding, poor planning. Avoid all these to prevent cracking at corners.

Notes:

All tests may not be valid for metallic Laminates.

Samples pasted, represent only colour, pattern and finish, not actual thickness. There may be slight variation in shades in batch to batch, particularly in Metallic designs.

Bonding of laminate under high humidity, plywood with high moisture content, ply with uneven surface, inferior quality adhesive and insufficient pressure may lead to delamination/ air bubbles in between ply and laminate.

Luxe + warrants that its products are free from manufacturing defects and they are apt and suitable for usual purpose under normal and proper use. The product must be inspected prior to installation and our liability will be limited to the extent of the product only.
